

I started coding at the age of eleven. In the next five years, I put into production ten websites and seven web-based video games. Programming will always be my passion.

At a young age I was taught to have godly characters. I learned that being smart wouldn't get me anywhere unless I was diligent, honest, humble, patient, and respectful.

Achievements

- Graduated High School at 14
- Became a site moderator at Replit
- Won 1st place in a hackathon**
(three team members, ~60 participants)
- Got to 650th place out of 311,000 competitors in algorithm competitions (codingame)

Certifications

- Responsive Web Design (FreeCodeCamp)
- Javascript (Freecodecamp)
- Python3, Flask, SQL (CodeAcademy)
- NodeJS (CodeAcademy)
- Javascript - Rated in the top 1% of developers (Codingame)

Education

- Bachelor of Science (Computer Science)
University Of People (Approx 2026)
- Graduated High School
in Dec 2019

Skills

- Javascript
- NextJS
- ReactJS
- Node / Express
- P5.js
- HTML
- CSS / SCSS
- MongoDB
- GraphQL
- Git / Github

Hobbies

- Competing in Hackathons and Algorithms
- Art and Graphics
- Building Lego
- Jiu-Jitsu

Experience

Full Stack Software Consultant & Intern, Saasbox

Jan 1st 2022 - March 31st 2022

- Put into practice the CICD method, constantly patching bugs and making 3-5 deployments a day
- Fixed and created majority of interface elements, redesigned landing page
- Patched bugs and implemented new features on both client and server side
- Created blog posts & shared SaasBox across developer networks

Projects

Replit Moderation Dashboard

Built the official moderation dashboard for [replit](#) as a direct freelance contribution with the following main functions:

- View abuse reports of repls, users, comments, and images
- Perform actions on those reports (esp. unpublish, warn, ban)
- Log actions and notify user and reporter
- Access flagged reports and discussions
- Access logs of previously-performed actions and reverse them
- Search for possibly violating content that hasn't been reported

YouBarter

<https://youbarter.us/>

YouBarter is a nonprofit organization created to bring people together who are willing to barter.

- View all listings on a map of the United States (mapbox)
- Search and filter through different listings
- Make offers to people who you want to barter with

Next.js Admin Engine

<https://next-admin.ironcladdev.repl.co/>

Start a new Next.js project with a built-in administration dashboard. Useful as an alternative to wordpress, runs on JSON.

- Set up by cloning the github repo editing a few environment variables
- Users who have access can edit content on pages, add items to the JSON database, and more.
- Authentication contains ratelimiting and a secure, customizable password.
